

## ValGold Resources F2018 Q2 Results

ValGold Resources is posting its financial results for the fiscal 2018 second quarter ended January 31, 2018. The Company posted a quarterly loss of \$13,444 and quarterly earnings per diluted share of \$0.000.

The Garrison property, where the Company's primary royalty asset is, continues to be drilled by Osisko with recent results bringing the total meters drilled on the property to 85,000. Osisko also announced this quarter they will be producing an NI43-101 report on the property in July 2018, with an updated mineral resource estimate.

"We're able to report the continued operation of the company on an extremely tight budget, as we wait for Osisko's updated mineral resource estimate and 43-101 report for the Garrison Gold property," said Kevin Snook, ValGold's CEO. "ValGold is in an extremely healthy position as it is well capitalized, with a valuable royalty asset and a disciplined management strategy of cost reduction and elimination."

The financial statements and MD&A will be available on [www.valgold.com](http://www.valgold.com) and [www.sedar.com](http://www.sedar.com).

The Company would like to wish all of our shareholders well and thank them for their continued support.
